September 10, 2018

Dear Parents & Faculty,

Regarding fungus and mold cleanup, we are still awaiting final results on the 3 rooms that required additional work. Due to the widespread reporting of fungus and mold in buildings, labs and environmental companies are backlogged and timetables for receiving results are guesses at best. As of yesterday morning, I have been told we will most likely have the results for those 3 rooms Tuesday evening, but this is not a guarantee. As soon as I know the results, I will share them with you. Until the rooms have been cleared, students and staff will remain located in their alternate locations.

Additionally, RK Environmental is continually monitoring the situation by keeping an eye on the humidity, dew point, etc., in the building as well as ongoing testing of rooms to ensure a safe learning environment for students and staff. Ongoing room testing to date has indicated the problem is isolated. If other rooms need professional cleaning as evidenced by ongoing monitoring by RK, then we will address that situation when it arises and take appropriate measures by relocating students and staff until the cleaning and testing has been completed. I thank you for your patience and support as we work through this situation.

Sincerely

William Thompson  
Chief School Administrator
