September 12, 2018

Dear Parents & Faculty,

Regarding fungus and mold cleanup, we have received air quality results clearing Mrs. Laubach and Mrs. Barofski's classrooms. Students in these homerooms have returned to their classrooms. Mrs. Evans' classroom, however, requires additional work prior to students and staff being permitted to return. As a result, Mrs. Evans and her students will remain located in their alternate location until the room has been cleaned and cleared.

As RK Environmental has continually monitored the situation, they discovered elevated levels of fungus in our Music room. The music room has been sealed off and will be professionally cleaned this Thursday. Once the room has been properly cleaned, RK Environmental will conduct an air quality test to ensure the issue has been addressed prior to the return of students and staff. Until this happens, Music class will be held on the stage.

I thank you for your continued patience and support as we work through this situation.

Sincerely,

William Thompson
Chief School Administrator
