August 27, 2018

Dear Parents & Faculty,

We found fungus in three classrooms and one closet at White Township School. To proceed in a cautious manner, RK Environmental was contacted immediately, so they could visit our school and appropriately assess the situation. Per RK Environmental's guidance, and in an abundance of caution, the three classrooms and closet are being professionally cleaned by PuroClean. These classrooms and closet are properly sealed off while cleaning is occurring, to ensure a safe learning and work environment for our students and faculty. After the cleaning is completed, RK Environmental will return to conduct testing to ensure the work was properly completed and the fungal growth has been removed. RK Environmental is actively monitoring and taking all appropriate precautionary measures necessary to provide our school community with a safe and healthy environment. As always, I thank you in advance for your understanding as we work through this situation. I look forward to the start of the 2018-2019 school year.

Sincerely

William Thompson
Chief School Administrator
