A Message to Parents & Students

Students attending our school have certain rights but also have certain responsibilities. For example, students have the right to attend school in a safe and secure environment, to respectfully express their opinions, to have fair and consistent rules, to have their privacy respected, and to due process procedures. They also have the responsibility to attend school and classes regularly, to respect others as well as school property, and to refrain from conduct that disrupts the teaching-learning process.

The goal of discipline is self-control, not just obedience to adult authority. By understanding and abiding by a code of conduct in the school community, students begin to prepare themselves for their participation as citizens in a larger society.

For the vast majority of students who abide by the rules, our discipline code should not present any problems. School personnel appreciate students who come to school prepared to learn and ready to cooperate. Students who choose to ignore school policies will learn that there are consequences for making the wrong decision and will hopefully make better choices in the future.

The members of the school community of White Township Consolidated School expect all students to fulfill the behavioral expectations of the school community, and to:

- prepare themselves mentally and physically for the process of learning;
- demonstrate respect for people and property;
- use time and resources responsibly;
- share responsibilities in group projects;
- meet the unique requirements of each class;
- monitor their own progress; and
- communicate with parents and school personnel about school related matters.

Our school rules require that students:

- Conform to reasonable standards of socially acceptable behavior;
- Respect the person, property, and rights of others;
- Preserve the degree of order necessary to the educational program in which they are engaged; and
- Obey persons in authority and respond to that authority.

Our staff members promote a learning environment that encourages fulfillment of each student's potential in regard to his/her program. This goal may be reached by adapting instruction to individual needs by:

- insisting on reasonable standards of scholastic accomplishment for all students;
- creating a positive atmosphere in and out of the classroom;
- extending the same courtesy and respect that is expected of students; and
- treating all students with consistent fairness.

It is with high expectations for continued success at the White Township Consolidated School that this Student Code of Conduct has been developed.

Board Policy 5710 - Pupil Grievance

The Board recognizes that, as citizens, students have the right to request redress of grievances. Further, the Board believes that the inculcation of respect for lawful procedures is an important part of the educational process. Accordingly, individual and group grievances should be provided for and appropriate appeal procedures implemented.

For the purposes of this policy, a student complaint or grievance shall be any such that arises out of actions, procedures, and policies of this Board or its employees or the lack of such policy or procedure.

In the event that a pupil or (his-her) parents or legal guardian believe they have a grievance, the pupil and/or (his-her) parent or guardian should proceed in the following manner to resolve the matter:

- a. A meeting should be arranged with the student's immediate teacher and

the matter discussed fully by the persons concerned.

- b. If the matter cannot be resolved by the student's teacher, the grievance should be presented to the CSA.
- c. The CSA will make every effort to arrange meetings with the persons concerned to acquaint her with all of the facts surrounding the problems.
- d. If the matter cannot be resolved by the CSA.

If the matter concerns administrative policy, and does not fall within the stated policy regarding the responsibility of the CSA, it should be reduced to writing and presented to the Board of Education at its regular meeting.

- e. The Board of Education, or a properly designated committee of the Board, will recommend a resolution to the grievance.

Policy Adoption: 16 December 2002

Extra-Curricular Activities

The Board of Education believes that the goals and objectives of this district are best achieved by a diversity of learning experiences, some of which are more appropriately conducted outside the regular instructional program of the school. The purpose of such extra-curricular activities shall be to develop leadership capacities and good organizational skills, to aid in the socialization of students, and to enable students to explore a wider range of individual interests than might be available in the regular curricular program.

For purposes of this policy, extra-curricular activities are those activities conducted on or off school premises by clubs, associations, and organizations of students sponsored by the Board and do not include Athletic Association competitions and practices. Extra-curricular activities must be related to the curriculum but are not offered for credit toward promotion or graduation and are ordinarily conducted wholly or partly outside the regular school day.

The following standards will govern student eligibility for participation in extra-curricular activities:

Attendance Standards - A student is ineligible for participation in extra-curricular activities if he or she has demonstrated unsatisfactory attendance by accruing four days of cumulative, unexcused absences within the marking period the activity is occurring.

In addition, no student who has been absent for a school day may participate in an activity or performance scheduled for the afternoon or evening of that school day. In the event of a Friday absence from school, the student will be ineligible for weekend participation. Students must report to school by 11:00 AM to establish an eligible attendance day. (Students who are participating in another school activity are not considered absent.)

Academic Standards - A student failing any subject at the mid-marking period during the first marking period may be ineligible for the co-curricular activity.

Subsequent eligibility for other activities during the remainder of the year will be determined by passing grades of all subjects on a student's report card following each marking period. Continuation of participation in the co-curricular activity is determined, in part, by passing all subjects as indicated on the report card.

A student may be dismissed from extra-curricular activity for the use, sale, or possession of alcohol, drugs, or tobacco or for violation of the rules of student conduct established by this district. A student who has been suspended, either in school or out of school, will be suspended from participation in co-curricular activities for the period of his or her suspension.

PTO Functions

The Student Code of Conduct and other school rules are in force during PTO functions. Parents of any students who violate the standards will be called immediately and asked to take their child home. Any students who violate the standards may not be allowed to attend the next function. Students attending a PTO function must attend school that day.

Technology Use

All students and parents must sign an acceptable use agreement form, which is contained in the 1st day mailing at the beginning of each school year. Students are expected to comply with the rules of the district as explained by the technology teacher each year and are expected to communicate in a respectful and responsible fashion.

Transportation/Bus Behavior

The safety of all children is always a paramount concern and all school rules apply when children are waiting for the school bus, being transported by a school bus to and from school, or when on a school-related field trip. The following specific rules and policies have been established for the safety of students riding school buses. Please discuss them with your child.

1. Students will be given an assigned seat. (This is in accordance with state law.)
2. Students may not eat, drink, or chew gum while riding the bus.
3. All students must remain in their seats while the bus is in motion and remain completely seated until the bus they are riding comes to a complete stop.
4. Children must keep hands, feet, and other items out of the aisle and inside the bus at all times, and must never throw anything out of a bus window.
5. Children may talk in normal tones, but must not shout in the bus or out the windows. They should not do anything that might take the driver's attention from the road.
6. Children are not to deface or damage property.
7. Children are not to bring dangerous objects to school.
8. Students are to use seat belts.
9. Students are to be at their bus stop at least 5-10 minutes before the bus is scheduled to arrive. Before crossing the road in front of a bus, children must wait for a signal from the driver.
10. Students must stay on the sidewalk and never walk in front of or behind a bus while at school.
11. Children are to cooperate with the driver and Safety Patrol members in order to ensure the safety of all concerned.
12. Children in third grade or younger who are not accompanied by an older sibling must be met at the bus stop by an individual who will be responsible for his/her care. **Young students will be brought back to school if there is no one to meet them at the bus stop in the afternoon. Parents will then be notified to pick the child up at school.**
13. If parents plan to **transport their own child(ren)**, they must notify the transportation coordinator in writing on the morning of the day the child is to be picked up, stating the

- time at which they will pick up the child. The time for departure should not be later than 3:12 P.M. The transportation coordinator will notify the bus driver and the teacher.
14. If parents wish their children to **remain after school** for any planned activity, (i.e. girl scouts, etc.) they must send a note and must plan to pick up the child after the activity is completed. The note will be kept on file and will release the Board from responsibility for the child's safety after he/she leaves the school grounds.

The bus driver will report all student misconduct to the Transportation Coordinator and/or CSA through a bus conduct report. Depending on the seriousness and frequency of the violation, the CSA will decide on an appropriate action. The CSA will consider any extraordinary circumstances, and make every attempt to be reasonable and consistent in utilizing the following guidelines to determine the appropriate action.

Consequences for Improper Bus or Bus Stop Behavior

First Notice of Misconduct: The Transportation Coordinator will review behavioral expectations with the student. The transportation coordinator will notify the CSA and the student's parents may be notified.

Second Notice of Misconduct: A conference will be held between the CSA or Teacher in Charge and the student at which time the student's bus conduct will be discussed. The CSA or Teacher in Charge will contact the student's parents. The student's bus privileges may be suspended for a specified number of days and/or an alternate consequence may be given.

Third Notice of Misconduct: The CSA will notify the parents of the student's bus conduct. The student's bus privileges will be suspended for a specified number of days. A parent conference will be requested before bus privileges will be reinstated. Parents will have the responsibility of providing alternate transportation for their child and of informing the CSA of such arrangements.

Additional Notices of Misconduct: The CSA will notify the parents of the student's continued bus misconduct. The student's bus privileges will be suspended for an extended period of time. It will be the responsibility of the parents to make the necessary alternate arrangements for the student's transportation and to inform the CSA of such arrangements.

***** Please note, a student's bus privileges may be suspended on a first time offense depending on the severity of the offense.**
