September 9, 2020

Dear Parents,

Welcome back to the 2020-2021 school year! Once again we will be having our annual Back to School Night presentations, but they will be virtual given COVID-19 safety measures.

For Grades K-4, our homeroom teachers will live stream (Zoom or Google Meet) with parents to review procedures and expectations for this year. The live stream presentations will cover necessary information for both in-person and virtual families. Please note, the information for in-person and virtual learning is intertwined within the presentation. It is important for all parents to hear all information since a student may change from one option to the other within the school year due to the need to quarantine or a family may change their decision regarding in-person vs. virtual learning. Homeroom teachers will email their parents a live streaming link for tomorrow night's sessions shortly if they have not already done so, and the schedule is as follows:

Thursday, September 10th (K-4)

- Session #1 6:00 – 6:30
- Session #2 6:30 – 7:00

If you do not receive a link by tomorrow afternoon, please email your child(ren)'s homeroom teacher or contact the main office.

For Grades 5-8, content teachers will create video presentations for parents. These presentations will be uploaded to our school homepage by the **beginning of next week** for parents to view as their schedule permits. Once all presentations have been linked to our school homepage, we will send parents an instant alert to notify parents the videos have been posted for viewing.

For specials teachers, they will also create video presentations for parents, and these will be uploaded to our school homepage next week as well.

We recognize the above plan is atypical from previous years, and you may have questions following this year's Back to School Night presentations. If this is the case, please do not hesitate to reach out sooner than later regarding your child(ren)'s educational program.

I look forward to partnering with you this school year, so we can maximize your child(ren)'s potential!

Sincerely,

William Thompson
